

CONDYLAR RESORPTION: ORTHODONTIC AND SURGICAL MANAGEMENT PERSPECTIVES

May 2 – 3, 2014 at the Fairmont Hotel Chicago, Illinois USA
www.astmjscondylarresorption.org

An open meeting presented by the ASTMJS/ESTMJS/BATS

ANNOUNCEMENT.

The American Society of TMJ Surgeons proudly announces a unique and timely Continuing Education program entitled “Condylar Resorption –Orthodontic and Surgical Management Perspectives” This program will be held May 2 – 3, 2014 at the Fairmont Hotel in Chicago, Illinois.

The educational objective of this meeting will be to provide participating surgeons, orthodontists, and other community of interest attendees with the latest evidence-based information on this important and vexing subject.

The meeting format includes 3 sessions of focused presentations by invited speakers followed by a reactor panel and audience participation Q&A. A 4th session will allow for limited topic related attendee accepted abstracts. The program will close with a Plenary Session during which speaker session recorders will present succinct summaries and lead discussions with all the speakers, panelists and the audience with the goal of developing basic science and clinical questions for research that should be pursued related to this problem.

CONFIRMED SPEAKERS:

Ross Tallents, DDS – The Effect of Condylar Degeneration on Mandibular Growth

Michael J. Gunson, DDS – Pathophysiology and Pharmacologic Control

Chester Handelman, DDS – Orthodontic Management

Chi Yang, MD – Minimally Invasive Surgical Management Options

G. William Arnett, DDS – Medical/Orthognathic Management

Larry Wolford, DMD – TMJ Surgery/ Orthognathic/Total Joint Replacement
